

Excerpt from the Bio Suisse Standards

Declaration of conformity with Bio Suisse Standards

1 Labelling outside of Switzerland and when exporting to Switzerland: BIOSUISSE ORGANIC

Operations outside of Switzerland that are certified according to the Bio Suisse Standards may use the BIOSUISSE ORGANIC designation as follows:

BIOSUISSE ORGANIC operations

may display the logo 'BIOSUISSE ORGANIC' (below) on any external business communications. This logo may only be used if the operation has a valid BIOSUISSE ORGANIC certificate. The certificate is the document that proves the operation's current certification status.

BIOSUISSE ORGANIC products

that are destined to be imported to Switzerland must have the phrase "BIOSUISSE ORGANIC" or the BIOSUISSE ORGANIC logo (see below) on containers, delivery notes, invoices, etc. Containers for export must be labelled with the logo. Templates of the logo in green or black may be downloaded from the [Bio Suisse website](#).

Logo:

The Bud logo and the following terms may not be used outside of Switzerland: "Bud farm", "Bio Suisse farm", etc.

Exception for products in final packaging

If a product is packaged outside of Switzerland and the Bud logo is placed on the packaging, this must be carried out on behalf of a Bio Suisse contracting partner (Bio Suisse producer or Bio Suisse licensee). In case of doubt, Bio Suisse reserves the right to see the relevant written contract.

In-conversion products

All products certified as in conversion according to the Bio Suisse Standards must be clearly labelled as "in-conversion products".

2 Labelling in Switzerland and when exporting from Switzerland: Bud

If the requirements set forth in the principles and objectives are met and every step of the chain of custody can be unambiguously traced back to a BIOSUISSE ORGANIC farming operation, the importing licensee will receive a Bud stamp of approval that entitles the products to be labelled with the Bud logo for each imported BIOSUISSE ORGANIC batch. Registration and approval of chains of custody are conducted via the [Bio Suisse Supply Chain Monitor \(SCM\)](#).

The BIOSUISSE ORGANIC designation and logo may not be used in Switzerland, on retail trade packaging, or when exporting from Switzerland.
